

THE INSTAKEY SECURITY SYSTEM IS A COMPREHENSIVE PROGRAM THAT FULFILLS THE NEEDS OF YOUR SECURITY, FACILITIES, AND LOSS PREVENTION DEPARTMENTS

Key management does not need to be an ongoing challenge or an expensive overhead cost. No matter how many doors, locations, or keys issued, key management should enhance the effectiveness of your organization's entire security operations. The InstaKey Security System is a comprehensive program that is a culmination of revolutionary lock hardware; web based key tracking software, and customizable administrative guidelines that makes key management a powerful way to reduce costs, increase security, and save time.

Hardware:

With a simple turn of a specially designed key, any authorized personnel can re-combine the lock cylinder without removing the cylinder, lock, or having to contact a locksmith.

- **Re-keyable cylinders** that allow you to change your locks up to 12 times without any professional assistance. This improves security while reducing operating expenses and time.
- **Patent restricted key blanks** that cannot be duplicated without your authorization eliminating the need to rekey if you get the key back.
- **Serialized keys** that register each key to a specific person.
- **Cylinders** that retrofit into 90% of existing locksets.

Web Based Key Tracking Database:

- **State of the art high security** internet-accessible database
- **Web-based software that monitors the serial numbered keys**, produces real-time reports and audits, and allows you to track the keys and rekeys to a specific person and/or place.
- **An effective tool** for determining who has a key to this door or location
- **Timely administrative reporting** to improve recurring cost savings
- **Efficient audit reporting capabilities** to increase your productivity

Administrative Guidelines:

InstaKey and Security Source helps you to develop administrative guidelines and procedures that work for you and your personnel. Each step of the process is methodically walked through in order to utilize the best communication avenues and educational tools available.
